

DESSICATOR (W008)

Category: Lab Tools

Product Code: W008

Category: LAB TOOLS

Sub-Category: GLASSWARE

-
- A desiccator in engineering testing laboratories is used to store samples or materials in a dry environment by absorbing moisture from the air. It helps prevent sample

contamination and ensures accurate results in tests that are sensitive to humidity, such as moisture content analysis or when working with hygroscopic materials.

ORDERING INFORMATION

Item	Code
DESSICATOR - 200 mm	W008G296H
DESSICATOR - 250 mm	W008G344H
DESSICATOR - 300 mm	W008G420H
VACUUM DESSICATOR - 200 mm	W009G296H
VACUUM DESSICATOR - 250 mm	W009G344H
VACUUM DESSICATOR - 300 mm	W009G420H

Keywords: dessicator, W008 dessicator, ALFA Testing Equipment, sample storage, moisture control, engineering lab equipment, laboratory glassware, hygroscopic materials
