

QUARTERING CANVAS (G758)

Category: Lab Tools

Product Code: G758

Category: LAB TOOLS

Sub-Category: LAB TOOLS

-
- A quartering canvas in engineering testing laboratories is used for reducing bulk soil or aggregate samples to a representative smaller portion by the quartering method. It

provides a clean, flat surface to divide and mix materials accurately, ensuring unbiased sampling for testing.

ORDERING INFORMATION

Item	Code
QUARTERING CANVAS - 1.50 m x 1.50 m	G758X001H

Keywords: quartering canvas, G758 quartering canvas, ALFA Testing Equipment, soil sample division, aggregate sample splitting, engineering lab tools, sample preparation equipment, ASTM C702 compliant canvas
