

VACUUM DESSICATOR (W009)

Category: Lab Tools

Product Code: W009

Category: LAB TOOLS

Sub-Category: GLASSWARE

-
- A vacuum desiccator in engineering testing laboratories is used to store samples in a low-pressure, dry environment. By applying a vacuum, it removes moisture from the air

and from the sample itself, ensuring that samples remain dry and uncontaminated during storage or preparation for sensitive tests.

ORDERING INFORMATION

Item	Code
DESSICATOR - 200 mm	W008G296H
DESSICATOR - 250 mm	W008G344H
DESSICATOR - 300 mm	W008G420H
VACUUM DESSICATOR - 200 mm	W009G296H
VACUUM DESSICATOR - 250 mm	W009G344H
VACUUM DESSICATOR - 300 mm	W009G420H

Keywords: vacuum desiccator, W009 vacuum desiccator, ALFA Testing Equipment, sample storage, moisture control, engineering lab equipment, laboratory glassware, hygroscopic materials
